☎ 8976520212

My name is **Nitish Kumar Sharma**, currently I'd opted **BCA (Bachelor of Computer Applications)** Undergraduate degree program from **Yashwantrao Chavan Maharashtra Open University (YCMOU)**.

I am **Web Developer** with profound knowledge of **HTML5, CSS3 and JAVASCRIPT**. Now, I am learning **REACT JS** for making dynamic **Web Apps** and vision is to learn all **Frontend Technologies**.

I am a very **passionate developer** and always try to learn and understand things to become better and **build better**.

Education

- **Undergraduate (2022-2025)**

Currently, I am pursuing my Undergraduate degree program from **Yashwantrao Chavan Maharashtra Open University (YCMOU)** in **Bachelor of Computer Application (BCA)**.

- **Intermediate 10+2 (2022)**

I had completed my **HSC (Higher Secondary Education)** from **Maharashtra State Board** in year 2022. In which, I had scored **419 out of 600** which is **69.8%**.

- **SSC 10th (2020)**

I had completed my **SSC (Secondary Education)** from **Maharashtra State Board** in year 2020. In which, I had scored **415 out of 500** which is **83%**;

Skills

I have profound knowledge of **HTML (Hypertext Markup Language)**, **CSS (Cascading Style Sheets)** and **JavaScript**, which are extensively use in making Web Pages as well as doing Web Development.

I am also learning **REACT JS** which is used to make **Web Apps** and provides better **User Experience** than **Web Pages**.

- **HTML5** (Hypertext Markup Language)
- **CSS 3** (Cascading Style Sheets)
- **JAVASCRIPT**
- **Responsive Web Design**
- **React Js**

Experience

- **Fresher**

Projects

I had made some projects which will showcase my above skills.

1. Calculator Website

I had made a **calculator website** using **React JS**. I've to check my knowledge that's why I had made this project and used React core concepts like **Custom Components**, **useState**, **NavLink**, **props**.
